hiremore AI

Powered by Quinoid

hire faster
hire Smarter
with AI

Leverage AI-driven insights to find top talent in minutes.

More Placements.
Less Legwork.

hiremore AI takes the busy workout of recruitment. It writes job posts, screens resumes, interviews candidates, and scores them,all automatically. Your team spends less time sorting resumes, and more time closing placements.

Recruiters spend **60 - 70 %** of their time trying to reach quality candidates and screening resumes.

75%	80%	100%	3M+
Faster Hiring	Cost Savings	Positive Experience	ResumesParsed

Why Agencies choose hiremore AI

- Handle more clients and more roles without adding headcount
- Turn resumes into ranked, ready-to-present shortlists in minutes
- Give every client a consistent, professional hiring experience
- Free up recruiters to focus on relationships, not admin

How It Works

hiremore AI simplifies recruiting with a powerful 5-step flow that saves time and boosts quality.

Create & Publish

AI writes the job post and publishes it everywhere, in one click.

Capture & Screen

AI writes the job post and publishes it everywhere, in one click.

AI Interview

A conversational AI interviews each candidate and asks smart follow-ups.

Review & Shortlist

See clear, simple summaries of why each candidate is a strong fit.

Evaluate & Decide

Scorecards and interview guides help you close the role, faster.

Built for recruitment Agencies

Agencies juggle many clients, many roles and many candidates at once. hiremore AI is built for that scale, so you can screen more, interview more, and deliver stronger shortlists to every client without slowing down.

Also great for

Enterprises

Consistent, fair hiring across every team and location.

Startups

Move fast on a lean team, with AI doing the heavy lifting.

Solo Recruiters

An AI co-pilot that screens & interviews on your behalf.

HR Teams

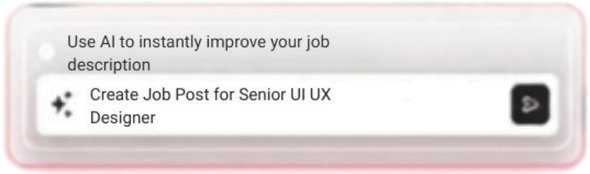

One shared workspace, from job post to final decision

Every Client.
Every Job. One Place.

Post a role, manage the pipeline, and keep every client’s search organized — without switching tools.

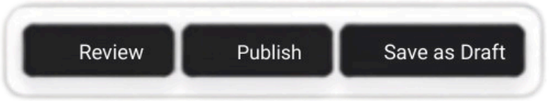

AI-Written Job Posts

Describe the role in a few lines — AI drafts the description, skills and screening questions.

Ready in One Click

Review, publish, or save as a draft. Clone a past role for a similar client search.

1. A simple drag-and-drop pipeline for every stage of the search
2. Shortlist, hold or reject candidates in one click
3. A clean candidate profile with resume, notes and full activity history
4. Tag and organize candidates so nothing gets lost between clients
5. Bulk actions to update many candidates at once

- A simple drag-and-drop pipeline for every stage of the search
- Shortlist, hold or reject candidates in one click

Let AI Run the Initial Rounds

Instead of scheduling dozens of screening calls, let hiremore AI's voice interviewer do it — consistently, and around the clock.

AI Interviews

- A natural, conversational AI interviewer, not a rigid script
- Asks smart follow-up questions based on what the candidate says
- Covers technical, behavioral and role-specific questions
- Set the interview length and difficulty to match the role

AI Interviews

- Every answer is scored, with strengths and gaps clearly explained
- A simple hiring recommendation, backed by the full transcript
- Know exactly why a candidate is — or isn't — a fit

Flexible interviews, your way

AI, Human or Hybrid

Run AI, human, or hybrid interviews for screening, technical or HR rounds.

Easy Scheduling

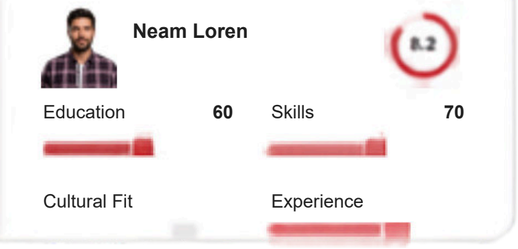

Send invites, let candidates pick a slot, get automatic reminders and statustracking.

Test Skills,
Not Just Answers

Post a role, manage the pipeline, and keep every client’s search organized — without switching tools.

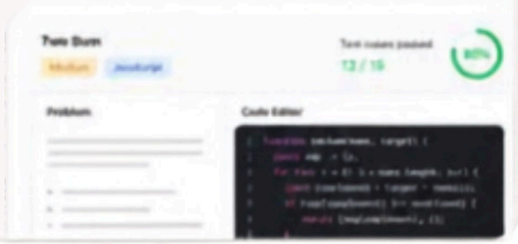

Assessments

Evaluate candidates across 12+ offline assessment types

Coding Challenges

Real-world coding problems with automatic evaluation & detailed feedback

Assess technical & non-technical skills with structured tests and coding challenges.

AI Question Generation

- Generate interview and test questions straight from a job description
- Questions automatically adjust to the role's difficulty and seniority
- Every question set is role-specific — no generic templates

Human Interview Support

- Structured guides and suggested questions for your own recruiters
- Ready-made scorecards, so every interviewer evaluates the same way

Report, Collaborate, and Look Good Doing It

Repost clients actually read

Candidate Summaries

A clear one-page view — transcript, scores and a hiring recommendation.

Search Analytics

Track applicants, pipeline progress and time-to-shorlist for every role.

Proctoring Suite

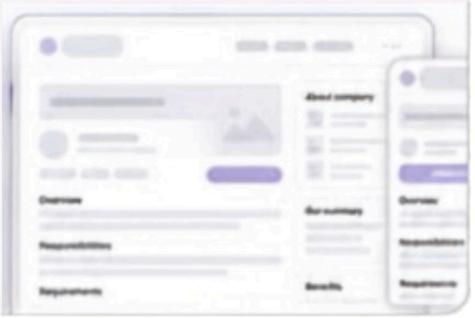

Identity checks before the interview begins

Real-time monitoring across 35+ integrity events, flagging unusual behavior

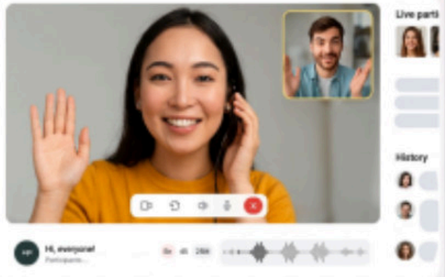

A simple integrity score, with full recording & evidence, for every session

A Smooth Experience for candidates

A branded, mobile-friendly interview page for every client

Quick device checks so interviews start without technical hiccups

ABOUT US

ABOUT MIRALOYD

INTEGRATED TECHNOLOGY SOLUTIONS

Miraloyd Global Consult Limited is an integrated technology solutions provider that designs, deploys and supports communication, connectivity, software and IT infrastructure for businesses, institutions and public-sector organisations. Our work helps people communicate better, keeps offices and remote locations connected, supports the development of digital systems and strengthens the IT infrastructure behind everyday operations.

Services include unified communications, internet connectivity, software and digital solutions, cloud and data centre infrastructure, cybersecurity, backup and disaster recovery. We also provide managed IT services and technology consulting.

Communications is a core part of our work. Our services cover cloud and on-premises IP telephony, contact centre solutions, customer engagement platforms and mobile communications. We also provide IVR, voice services, AI-powered communication and collaboration tools.

We provide the networks and infrastructure that keep offices, staff and systems connected. We also develop and integrate software, digital tools and AI solutions to improve business processes and connect the systems an organisation uses.
